

Important Informations

Important emergency numbers are: **Emergency 144, police 117, veterinarian 0041 41 260 66 80**

For entry into Switzerland a **valid passport** is required. The dogs require a current pet passport and a **valid rabies vaccination**.

Otherwise apply the relevant provisions of Swiss Customs.

For driving on the **motorways** in Switzerland, you need to buy a **vignette** at border crossing (CHF 40.--). **Safety belts** on all roads are **duty**. The alcohol limit is 0,5 ‰.

The **WM-Parking** at the **Rüeggisingerstrasse 45, 6021 Emmenbrücke** may be used only by judges, official persons and dog handlers. - Distance to the stadium is 250 m. The guest car-parking is located opposite to the **Mooshüslistrasse 41, 6020 Emmen**. - Distance to the stadium is 350 m.

Food

The **restaurant of the Boxer Club** is located between the grandstand and the little wood. **Off-road catering** happens on-demand with "Znüni-Wagen"! (Mobile snack service)

Special

All dogs must be marked with a clearly visible tattoo or a transponder (Chip), which can be read with a standard reader.

According to valid regulation of the Swiss Animal Protection Law, **chain collars may be used only with draw-stop!**

The possession and use of e-devices, spiked collars and other coercions is generally prohibited in Switzerland! Violation is punishable and lead to disqualification!

Dog-Excrement-Collecting Duty

Every dog owner is required to gather the feces of his dog (see attachment) and dispose it in one of the specially designated containers. This also applies to the woods behind the stadium!

Dog Leash-Duty

In the period from **April 1st to July 31th in the canton of Lucerne all dogs must be on a leash** in forests and bordering fields. This also applies to all public facilities and parks and thus for the entire area of the world cup too!

The ATIBOX World Cup IPO 2014 will be played according to the examination regulations valid from 01/01/2012 and the new specification from 01/01/2014.

In addition to the current pet-ID, you have to present the **performance book, the performance certificate respectively** and to pass it for the new exam entry.

Tracking-Training

Controlled tracking-training will be offered on Thursday morning before the World Cup. Only the offered terrain may be used.

Section A "Track"

The tracking grounds consists entirely of grasslands.

The tracking leashes will be checked on the prescribed length after the draw by a person commissioned by the audit management.

The tracking objects consist on wood, leather and carpet.

The draw of the tracks is made by the judge in the grounds (according to schedule).

Section B "Subordination"

The entry- and collar control is carried out in the waiting room behind the grandstand. The dog handlers have to register in time there: **10 minutes prior to the start.**

The jumping equipment and the retrieving wood frame are installed in the area of the marker and will be moved away or laid down each before the protection service.

Males, females respectively are stored in separate places.

Section C "Protection Service"

The process of the **protection service** is done according to plan (see homepage). The first leg goes thus to the left.

The entry- and collar control is carried out in the waiting room behind the grandstand. The dog handlers have to register in time there: **10 minutes prior to the start.**

As **protection service hiding places** standard triangle hiding places are used (see homepage).

When changing the section to B, the triangle hiding places are laid on the floor.
